Professional Summary

Software Engineer pursuing B.Tech in Information Technology with hands-on experience building responsive and interactive web applications using HTML, CSS, and JavaScript. Experienced in REST API integration, DOM manipulation, software testing, bug reporting, and quality assurance processes. Strong leadership, communication, and collaboration skills demonstrated through technical projects and college-level event management. Seeking opportunities in Frontend Development, Software Testing, and Quality Assurance.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Web Design

Web Concepts: REST APIs, JSON, DOM Manipulation, Client-Side Storage

Software Testing: Manual Testing, Functional Testing, Regression Testing, Compatibility Testing, Bug Reporting, Test Documentation

Tools: Git, GitHub, VS Code

Programming: Java, Data Structures & Algorithms

Experience

QA Tester Intern

Jun 2026 – Dec 2026

Kalesh (Hybrid)

- Performed manual testing of web and mobile applications to identify functional defects, usability issues, and performance concerns.
- Executed functional, regression, and compatibility testing to validate new features, updates, and bug fixes before release.
- Documented and reported defects with detailed reproduction steps, improving communication between QA and development teams.
- Collaborated with developers and designers to enhance product quality, user experience, and release stability.
- Maintained test reports, tracked issue resolution progress, and contributed to continuous quality assurance processes.

Python Full Stack Intern

2026

EduSkills

- Developed web applications using frontend and backend technologies.
- Worked with REST APIs and basic database integration.
- Gained exposure to full-stack development workflows and software deployment practices.

Projects

Quick Notes – Live Web Application

<https://prashantumrao.github.io/Quick-Notes/>

- Developed a responsive notes application with complete CRUD functionality.
- Implemented client-side data persistence using Local Storage.
- Designed a clean and intuitive user interface for improved usability.
- Deployed the application using GitHub Pages.

Cryptocurrency Tracker – Live Web Application

<https://prashantumrao.github.io/Crypto-Currency-Tracker/>

- Built a real-time cryptocurrency tracking application using JavaScript.
- Integrated CoinGecko REST API for live market data retrieval.
- Implemented asynchronous API calls and dynamic UI rendering.
- Designed a responsive interface supporting multiple screen sizes.

Personal Portfolio Website

- Designed and developed a responsive portfolio website.

- Applied semantic HTML and modern UI/UX principles.
- Improved accessibility, responsiveness, and overall performance.

Education

Bachelor of Technology (Information Technology)

2023 – 2027

Axis Institute of Technology and Management, Kanpur
Dr. A.P.J. Abdul Kalam Technical University (AKTU)
Percentage: 82%

Senior Secondary (Class XII)

2023

Maharishi Vidya Mandir, Fatehpur (CBSE)
Percentage: 74%

Higher Secondary (Class X)

2021

Maharishi Vidya Mandir, Fatehpur (CBSE)
Percentage: 73%
